Abstract. This corrects the article DOI: 10.4149/gpb_2017058.

The article “Determination of selected dynamic quantities of growing intact seeds of maize” was originally published with the incorrect sentence on page 386: “FC in its physiological concentration depolarises the cell membrane potential.” The correct sentence is as follows: “FC in its physiological concentration hyperpolarises the cell membrane potential.”

Article was published in General Physiology and Biophysics (2018), 37, 375–389.
